How does it work?

We will give you access to your local area datashare via an online dashboard

Data sharing

We will share appropriate and proportionate data with you enabling BID target hardening

We push our intelligence to your BID via existing incident management software meaning no requirement for process changes at the BID level

Your BID and levy payers will receive NBCC best practice via “push” to enable businesses to better protect themselves from crime

We will notify you when targeted vehicles and known offenders enter your geographical area, allowing your resources to identify offenders and prevent crime before it is committed.

How does it work?

Your BID team will be invited to NBCS Member Days

The NBCS will act as a conduit between your BID and the key stakeholders within retail

Branding and networking

Use of the NBCS logo on your website

How does it work?

Tell us when you are going to ballot and we'll support your business plan proposal by briefing our members

Retailer support

We will recommend to our members that they support your BID proposals during the ballot process

We will share your business plan and materials with the influencers and decision makers within our membership to ensure you can reach the top levels within your levy paying businesses
